To Whom It May Concern:

BDA is an Oxobiodegradable Additive manufactured by Willow Ridge Plastics, Inc. This product is manufactured at our factory in Erlanger, Kentucky, USA.

BDA is tested using the following ASTM test methods.

ASTM D 3826-98 Standard Practice For Determining Degradation End Point In Degradable Polyethylene And Polypropylene Using A Tensile Test.

ASTM D 5510-94 Standard Practice For Heat Aging Of Oxidatively Degradable Plastics.

ASTM D 5208-01 Standard Practice For Fluorescent Ultraviolet (UV) Exposure Of Photodegradable Plastics.

BDA Meets all requirements of this testing.

All of the ingredients used in the manufacture of BDA are listed in the Federal Register, Code of Federal Regulations #21, Parts 170 to 199 as "Generally Recognized As Safe For Food Contact Applications".

BDA contains no government listed heavy metals. BDA is non toxic.

A handwritten signature in cursive script that reads "William C. Hogan".
